Lethbridge and Winnipeg

Copyright, Canada, 1946, by Henderson Directories Ltd., 279 Garry St., Winnipeg

Introductory

The present volume constitutes the 1946 edition of Henderson's Directory of Lethbridge. The work embodies a complete epitome of the civic, commercial, social, and industrial interests and activities of the municipality. It is a modern Directory in all its parts and includes all the essential features which have proven so satisfactory to our patrons in previous issues; these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

THE STREET AND AVENUE GUIDE

THE STREET AND AVENUE GUIDE starting on page 31 features the names of all streets and avenues arranged alphabetically and numerically, giving the location, number on the street and showing the occupant.

The intersecting streets are shown in the order that they come.

✦ Denotes that there is a Telephone in the house.

THE ALPHABETICAL DIRECTORY

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations starts on page 75.

THE CLASSIFIED BUSINESS DIRECTORY

THE CLASSIFIED DIRECTORY at the end of Book, exhibits the various manufacturing, mercantile, and professional names, compiled under headings appropriate to the class of industry or profession followed.

ADVERTISING LETHBRIDGE

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the Directory in the directory libraries, where they are readily available for reference use by the public. There they serve as perpetual advertisements of Lethbridge for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

Respectfully, The Publishers,

HENDERSON DIRECTORIES LIMITED.

September, 1946.

Lethbridge

(By courtesy of the Lethbridge Board of Trade)

LOCATION

Lethbridge is situated 125 air miles south-east of Calgary, 475 miles from Vancouver, and 700 air miles from Winnipeg. It is on the Old Man River, known as the Belly River in 1872 when Nicholas Sheran, Alberta's first coal miner, opened a mine at what was then called Coal Banks. Its name was changed in 1885 to Lethbridge, after William Lethbridge, first president of the North Western Navigation and Coal Company, which developed the coal properties at Coal Banks.

PROGRESS

Lethbridge achieved the dignity of a town in 1891, and its first mayor was C. A. Magrath, who was also the first president of the Lethbridge Board of Trade. The town was created a city in 1906, with a commission form of government being inaugurated in 1914. This was continued until 1928, when the managerial form of government was instituted, which is still in force.

MUNICIPAL GOVERNMENT

As has been noted, Lethbridge is operated by a city manager form of government, one of the few cities in Canada so governed. At the commencement of this type of government, the city had a net debt of \$2,800,000, whereas at the end of 1945, the net debt was \$629,000 or a per capita debt of \$39.00. The mill rate dropped from 48 mills to its present 37 mills.

The city council is elected by the popular vote of eligible voters, the mayor being chosen from the councillors at the first meeting of the new council each year. The public and private school boards are also elected by popular vote.

Municipal Ownership.

The city of Lethbridge owns its own power system, its own waterworks system, its own filtration system to supply clean water, and a modern sewage disposal plant. It operates its own street railway system, which is almost entirely converted to buses.

Other Facilities.

The city and district is also served by natural gas from wells, and is well taken care of for communication facilities by the system of the Alberta Government telephones, whose Southern Alberta headquarters is in Lethbridge.

General Statistics.

Population	16,500 (est.)
Elevation	3,000 feet (approx.)
Area	640,000 acres.
Net Assessments	100% of levy
Tax Collections	\$55,655,000
Gross General Funded Debt	\$12,000,000
Municipal Assets	\$ 818,600
Bank Clearings	\$ 6,500,000 (inc. utilities)

AGRICULTURE

Lethbridge is the centre of one of the largest farming and ranching districts in Canada—some 7,000,000 acres. Almost \$25,000,000 came from wheat on the Lethbridge division of the C.P.R. in 1945, and indications are of a \$50,000,000 crop in 1946. In addition, livestock and livestock products in the same area will bring a total revenue of \$18,000,000.

Irrigation.

Irrigation farming has played an important part in the development of the city, and the surrounding area. Through it has developed a sugar beet industry, and a vegetable canning industry. Beef and sheep feeding projects have developed enormously as a result of the availability of sugar beet bi-products. In 1945, 30,000 cattle and over 75,000 lambs were maintained and finished on wet beet pulp and betalasses.

The St. Mary-Milk River Development.

Of immense importance to this part of Alberta is the St. Mary-Milk River Development which has been given preliminary appropriations by the Dominion Government. Under the direction of the Prairie Farm Rehabilitation Act, work has commenced on the diversion tunnels at the site of the new St. Mary Dam, which is the largest of the several units in the \$15,000,000 program. In 1947 work will be started on the main work of the dam. In the meantime the Provincial Government is carrying on work on the Pothole Coulee Dam, part of the \$15,000,000 SMRD project.

INDUSTRY

Mining.

The coal deposits on the banks of the Old Man River were the original reason for the establishment of a settlement where Lethbridge now stands, and coal has always played an important part in the city's history. In 1945, the production in the Lethbridge area was 451,500 tons, to which should be added the output of the Taber strip mines, 35 miles east of Lethbridge—244,000 tons. One of the major problems of the coal industry in Alberta is that its market is seasonal. It is the hope of those connected with this industry, as well as of those who see its future so closely tied up with the welfare of this area, that extensive development will be seen for coal mining by the processing of this product into more efficient fuel and plastic by-products. Our coal is ideal for this purpose, and our reserve supply is unlimited.

Other Industries.

Other important industries in Lethbridge are: The Ellison Milling and Elevator Co. Ltd., Broder Canning Company, Geo. W. Green & Co., Catelli Macaroni Plant, Sicks' Lethbridge Brewery Limited. Industries situated in adjacent towns are the Canadian Sugar Factories Ltd., with factories at Raymond and Picture Butte. The Taber Canning Co., the Magrath Canning, Magrath Woollen Mills, Coaldale Cheese Company. New industries are being attracted to the Lethbridge Area. There will soon be a co-operative packing plant in operation in Lethbridge, and a third sugar refinery will be constructed in the Taber-Barnewell area. The Lethbridge Board of Trade is at present planning a campaign to bring additional industry to the city, to make use of the many advantages which Lethbridge has to offer. The city of Lethbridge possesses many suitable sites for industry, and the present Prisoner of War Camp offers outstanding possibilities, being served by all utilities. Its final disposition has not been decided, but it is to be vacated by the end of 1946.

COMMERCIAL

Lethbridge is one of the really active trading centres of Canada. The total wealth produced in Lethbridge division of the C.P.R. in 1945 was \$79,000,000. The population of the wholesale trading area is estimated at 102,000 and that served by our retail merchants—66,000. In the last population figures, Lethbridge ranked 58th, but the city was 29th in postal revenue, 30th in bank deposits, and 29th in building permits.

TRANSPORTATION

Lethbridge is the divisional point of the Lethbridge C.P.R. division having direct connection with Vancouver, via Crow's Nest Pass and the Kootenays. It is also connected with the C.P.R. main line at Medicine Hat and Calgary, and is a focal point for other localities, north and south. The Greyhound Bus Lines offer a similar service, and also serves Waterton Lakes National Park. Lethbridge is on the main line of the Trans-Canada Airlines, with north connections, while the Western Air Lines provides a service through Great Falls, Montana to Los Angeles, Salt Lake City and Denver.

MISCELLANEOUS

The Lethbridge Board of Trade.

The Lethbridge Board of Trade was organized in 1889 with C. A. Magrath as its first president. Since that time it has played a leading part in the life of the city. One of its main objects has been the fight for the development of a water conservation program for Southern Alberta. Its work showed results with the establishment of the Lethbridge Northern Irrigation project which this year celebrates its 25th year; and the commencement of work on the St. Mary River Development. It has been in this manner that the Board has shown that it has had the interests of the surrounding agricultural districts at heart, whose farmers contribute so much to the growth and success of Lethbridge.

The Junior Chamber of Commerce.

In March, 1945, the young men of the city organized the Junior Chamber of Commerce, which by the end of the year had grown to some 100 members. This body is very active in the city, undertaking projects of a community nature which are more adaptable to youth than to the Board of Trade. They also have a program of self-development which helps to train them for executive work, and which promises to provide active, experienced members for the Board of Trade of the future.

Parks and Recreational Facilities.

The city owns some 200 acres of parks, which are adapted for various recreational purposes. The outstanding attractions are Galt Gardens, in the heart of the city, and Henderson Park, containing a lake, wading pool, dance pavilion and golf course. There are also two ball parks, playgrounds and ice rinks. The Country Club and Curling Club provide sport in the summer and winter, and the \$75,000 Y.M.C.A. offers an all-round program. In Galt Gardens there is located the Gurney Museum, which contains many fine specimens, and is a must for sight-seers.

Lethbridge is well served by two public servants, the Lethbridge Herald and Radio Station CJOC. The paper was first published in 1905 and has always been a champion for any cause which benefitted Lethbridge and Alberta. Its circulation has grown steadily until now it goes to 10,250 subscribers. CJOC went on the air in 1928, with transmitter and studio on the roof of the Marquis Hotel. In 1942 it increased its power to 1,000 watts and moved its transmitter east of the city. Plans have now been approved for the construction of a 5,000-watt transmitter, and actual work on this awaits equipment which is at present unavailable.

CIVIC CENTRE

Lethbridge is growing, and there is evidence that this growth has not reached its peak. There is a great deal of construction going on, both residential and business, and it is quite possible that the building permit figure for 1946 will go over the \$2,000,000 mark, far above the all-time record set in 1945 of \$1,600,000. As proof of the faith shown by the citizens in the future of the city are the plans for the Civic Centre, which is to be located on four city blocks, formerly occupied by the R.C.M.P. Barracks. The first building to be erected will be the new city hall. This will be followed by the Sick Memorial Swimming Pool, which is to be built with money donated by the late Fritz Sick. Future plans include a library, auditorium, hockey and skating rink, grounds for football, baseball, and tennis, and a sports auditorium for winter sports. The whole area will be landscaped and improved in a manner befitting the future civic, cultural and recreational centre of a progressive city.

Educational Information

LETHBRIDGE PUBLIC SCHOOL TRUSTEES

Elected at large. Meets every second and fourth Thursdays in Board Room, Collegiate Institute, 15th Street S. and Fourth Ave.
